200 Floats and Thousands of Active Spectators Ready to Explain Necessity of Reciprocity

More than 100 of the most prominent business firms of the city and a number from Colorado City and Manitou have already signified their intention to have handsomely decorated floats in the big civic and pioneer parade to be held on Tuesday, August 1, the second day of the big carnival in honor of Colorado Springs' fortieth birthday, and the prospects are that over 200 floats will be in the line of parade. The aim of the committee, of which A. H. Perkins is chairman, is to make this the biggest public demonstration of the business and financial interests of the city ever held, and from the enthusiasm with which business men are entering into the scheme the outlook for a grand success is bright.

One of the main objects in making a big demonstration of the business interests of the district in the parade is to give the thousands of visitors who will be in the city at that time, an object lesson on the resources of the Pikes Peak region and the stability of Colorado Springs. Because this city is famed as a tourist town the public in general forget that it is a business and financial center of no small importance and that it has resources of its own outside of its tourist business. One of the questions most frequently asked by visitors is, "What does this city have to depend on for the future?" and the idea of a big industrial and financial demonstration is calculated to answer this question for a few thousand visitors at least, in a way that will impress them most forcibly.

Big Interests Represented.
In addition to the floats to be entered by private business firms and individuals, will be floats representing the railroads, banks, reduction companies, many of the mining companies of Cripple Creek and Colorado Springs.

The country is facing one of the most gigantic, organized arson conspiracies the world has ever known," said State Fire Marshal Doyle. "The state fire marshal's department of Illinois, has united with the state fire marshals of Kentucky, Tennessee and Ohio to wipe out the 15 men at the head of this arson conspiracy. The head of the firebug trust is in Kansas City from which city the operations of the entire gang is directed."

Papers That Disregard Quality for Party, Denounced by Congressman.

DETROIT, July 19.—The feature of today's session of the annual convention of the National Editorial Association was an address tonight by Congressman Henry A. Barnhart of Indiana, who discussed the newspaper man's duty in connection with national legislation. The editors spent the afternoon visiting points of interest along the Detroit river.

Mr. Barnhart told the convention that since the people are sending more editors to each succeeding Congress the dawn of the legislative millennium is correspondingly nearer. "The great duty of the newspaper man," he said, "is to work for more possibilities, more health and more happiness, for the people."

In the great conflicts of public opinion for better things," said the speaker, "newspapers are a power for good or for evil, in proportion to the 'backbone' of the 'jelly' they show for public welfare."

The newspaper that panders to unwholesome public thought is a deserter in the face of high public duty and the one that puts conscience above the counting room cash register builds mightily for larger blessings to civilization both here and hereafter."

He denounced the policy of newspapers which blindly support the candidates of their party, regardless of whether the candidates are worthy of public confidence and trust.

"Tell the truth and fear no man, is the only safe guide to editorial success in the destiny of our country. And when we do this the golden age of just law enactment, bad law abolishment and wholesome law enforcement will make ours a mightier and happier people."

At the forenoon session the editors decided to change the name of the organization to The National Press Association of America. This action is a part of the plan to reorganize on a more comprehensive basis.

It also was proposed to make the secret office the nucleus of a bureau to furnish members with information on anything pertaining to the newspaper business.

A bulletin is to be issued once a month containing articles relating to all branches of the newspaper business. The face of high public duty will be taken tomorrow.

DENVER, July 19.—Denver is to be the headquarters of a great telephone system which will capitalize at \$50,000,000 and whose lines will embrace Colorado, Montana, Wyoming, Arizona, New Mexico, Oklahoma and parts of Texas, Idaho and Utah. The Colorado Telephone company which operates in New Mexico as well as in this state is the nucleus of the merger and E. B. Field, president of the Colorado company will be the executive head of the new company.

All the companies which will be taken in are parts of the Bell Telephone system controlled through stock ownership by the American Telephone and Telegraph company which also owns control of the Western Union Telegraph company.

The Colorado Springs Mining Stock exchange, numerous coal companies, the Colorado Midland shops and a number of other large interests. Something will be done in the way of advertising every natural resource of which El Paso county can boast, with the object of enlightening the crowds of visitors from all parts of the country on some of the reasons for this city's prosperity outside of its tourist business.

For the reason that the trolley wires on the main streets of the line of march will interfere with floats more than 15 feet in height, the committee requests that every one designing a float bear this in mind and not extend any part of the design above that distance from the street level. Any information desired on the details of the civic and pioneer parade will be furnished by Chairman Arthur Perkins, of the Perkins-Shearer company, by telephone or otherwise.

The parade will also be the occasion of the greatest fraternal demonstration ever made in this district, and

When Alliance Ceases.

Senator Stone said the reciprocity bill had been pictured as a ghost "stalking around in a moonless night, night seeking farmers to devour." He declared the opposition of the farmers had in almost every case been artificially created. The national grange had been "used by the firm of New York lawyers, Allen and Graham, who were summoned before the finance committee," said Senator Stone, to oppose reciprocity for the benefit of other interests that the firm represented. Instead of being lawyers for the farmers, he said, they were "professional lobbyists" and "representative manufacturers."

"The idea was to accuse the farmers and have them march upon the Capitol and Congress," said Senator Stone. "But behind them were these great interests footing the bills and urging them on."

Senator Brown Speaks.
"I want to express my grief, my profound grief," Senator Brown declared, "because the bill does not have the support of some of my friends in this body whom I know at heart are in favor of lower duties. I do not complain of them. I do not charge them with insincerity, because I know them to be sincere. But I simply cannot understand them."

"It is beyond my comprehension to appreciate how in one session of Congress I could vote for lower duties, in the next session favor a revision of the tariff, and at a third session be against the revision of a single schedule. It is a revision of a few schedules, not with all the countries of the world, but with one country; a plan that I believe marks the beginning of the end of exorbitant tariff duties in this country."

The speaker declared that it was not President Taft, "but a stubborn and loquacious Senate that was responsible for the extra session." He defended the President from charges that he was "taking too much part in legislation."

Honors President's Action.
"I honor the day when any President asserts his legislative as well as his executive power," he said. "Those presidents were greatest who exercised to the fullest their legislative as well as their executive power."

"The reason for this is that the legislative branch of the government, for some reason or other has been dis-appointed to the people who own the government. The people have depended in every emergency, and most times without disappointments, upon the force, character and initiative of the executive."

Senator Brown said that when he found Edward Hines, whom he described as the "head of the lumber trust and the manipulator of legislation," opposing the measure, "I'm the name of and for the sake of the farmers of this country, I began to think that there must be something in this bill which ought to command the respect and support of every honest man in this country."

"This bill," he concluded, "is the cornerstone of a new tariff system, which will put an end forever, I hope, to unnecessary and excessive duties. Senator Bristow of Kansas proposed an amendment today to the Canadian reciprocity bill imposing a duty of 30 per cent on rubber sponges and 25 per cent on other rubber goods not now provided for in the tariff laws."

PAYNE TAUNTS DEMOCRATS ABOUT PUBLICITY BILL

WASHINGTON, July 19.—Representative Payne of New York today in the house of representatives taunted the Democrats for letting the senate add to the campaign publicity bill features which the Democrats of the house voted down. He declared that since the senate had "not been afraid to provide for publicity of primary campaign expenses, the house Democrats now were coming around in favor of such publicity."

"The Democrats," replied Representative Rucker of Missouri "always have courted the fullest publicity."

SENATE IS ADVISED TO BACK RECIPROCITY.

Senator Stone Arraigns Interests for Using Farmers to Attack Bill.

WASHINGTON, July 19.—Vigorous support of the Canadian reciprocity agreement by Senators Brown of Nebraska, Stone of Missouri and Works of California, and a speech against the measure by Senator Keaton of Iowa, made up today's debate on the measure in the Senate.

Senator Stone arraigned the interests which he said had been using the farmers for the purpose of attacking reciprocity. He declared Democrats could find no excuse for not supporting the agreement as introduced by President Taft.

"This is part of a progressive movement toward a closer commercial alliance with Canada that will be for the lasting benefit of both countries," he said. "The President is on the right side; the Democratic House of Representatives is on the right side. It is a pitiable spectacle if the Senate stands as a stumbling block."

He said he had been charged by some Democrats with being an ally of the Republican President.

"I am supporting the measure, not the President," he said. "As soon as it is disposed of, I am afraid my alliance with him will cease, unless he is willing to support some of the Democratic tariff bills."

Senator Stone said the reciprocity bill had been pictured as a ghost "stalking around in a moonless night, night seeking farmers to devour." He declared the opposition of the farmers had in almost every case been artificially created. The national grange had been "used by the firm of New York lawyers, Allen and Graham, who were summoned before the finance committee," said Senator Stone, to oppose reciprocity for the benefit of other interests that the firm represented. WICHITA, KAN. TO HAVE A RECALL ELECTION

WICHITA, Kan., July 19.—It was announced today that enough signatures have been secured to insure the recall election of Mayor J. H. Graham and Commissioners Leach and Campbell of this city. Petitions for the recall of the officials have been in circulation for several days.

Friends of Chief of Police McKinley, who resigned recently at the request of the mayor have been active in obtaining signatures to the petitions.

WASHINGTON, July 19.—Whether the Taft administration wanted Lorimer elected to succeed Hopkins as Illinois senator and whether former Senator Aldrich of Rhode Island, then the Republican Senate leader, was the means through which that wish was conveyed to Edward Hines, the lumberman, probably will develop tomorrow.

Mr. Aldrich arrived in Washington tonight and is ready to appear before the Lorimer committee to explain his alleged activities in connection with the Illinois senatorial election.

Hines has testified that he waited until midnight at the Washington home of Senator Aldrich while the latter at the White House talked over the Illinois senatorial deadlock with President Taft. At the conclusion of the conference Hines said he was told by Mr. Aldrich that the President wanted Lorimer elected.

Mr. Hines has sought to prove that his own energies were directed toward the election of Lorimer as the result of that alleged conference at the White House and he declared he believed he held the commission of the administration.

Following Mr. Hines' testimony a statement of the President's attitude toward the Illinois election contrary to the impression created by Hines was issued from the White House.

Reynolds on Stand.
George M. Reynolds, president of the Continental Commercial bank of Chicago, who was reported to have declined the treasury portfolio in the Taft administration today told the Senate Lorimer committee what he knew of Edward Hines delivering an alleged message from the administration at

Washington to Governor Deneen to aid Lorimer's election.

He recalled how Hines on the day of Lorimer's election consulted with him, as to how to deliver the message to Deneen.

C. F. Wiehe, secretary of the Edward Hines Lumber company, said that William Burgess of Duluth, Minn., was in "absolute terror" if he testified to what was read as Burgess' testimony.

Burgess had said Wiehe told him on the Winnipeg flyer, March 7, 1911, that he subscribed \$10,000 to a Lorimer election fund.

Wiehe told the committee he believed there was a frame-up between Burgess and W. H. Cook. The latter recently testified that Edward Hines telephoned from his room in Chicago the day Lorimer was elected that he (Hines) would be down to Springfield with all the money necessary for Lorimer's election. Wiehe said he believed Cook would perjure himself to injure Hines.

Wiehe denied he had ever heard of the "Father Green" incident, as Burgess related it. Wiehe, however, recalled a rumor that Detective Keeley of the state attorney's office in Chicago complained to Father Green about the work assigned him in the Lorimer case, that Keeley got Representative Beckmeier drunk and that Beckmeier was taken down to the tenderloin district and a compromising photograph shown him when he would not testify as wanted.

Samuel J. Cusson of Virginia, Minn., a stockholder in the Edward Hines Lumber company; John B. Price, a lumberman of Seattle and B. A. Johnson, formerly of the American Lumberman of Chicago told of being on the Winnipeg flyer, but denied having heard the remarks attributed to Wiehe.

Another Death From Scourge.
NEW YORK, July 19.—Another death from Asiatic cholera occurred at the Swinburne Island hospital for the New York quarantine station today. The victim was Giuseppe Pettinichia, 22 years old, who arrived here on the steamer Moltke.

Notwithstanding this additional death making the count seven at this port, Health Officer Alvah H. Doty issued a statement in which he said the situation was satisfactory. No further cases of the disease have developed among the detained immigrants, and the one suspect which was discovered this morning proved not to be cholera.

Mayor Gaynor and Health Commissioner Lederle visited the quarantine station at the invitation of Dr. Doty. Upon his return the mayor said he had personally examined the cholera patients but that he was not ready to make any statement regarding his investigation.

Galveston Takes Precautions.
GALVESTON, Tex., July 19.—Precautions against the possible introduction of cholera through this port were taken when federal and state health officers conferred as to the best means of establishing a rigid examination of those reaching here on foreign vessels.

As there are no regular immigration lines running between Galveston and the Mediterranean it is not believed there is much danger.

MARSEILLES, July 19.—Four isolated cases of cholera are reported here. Precautionary measures have been taken to prevent the spread of the disease.

WASHINGTON, July 19.—The treaty between the United States and Great Britain providing for the arbitration of pecuniary claims between the two countries in accordance with the arbitration treaty was ratified by the Senate today.

The treaty provides that within four months after government may submit any claims which it desires passed upon, the only condition being that the claims shall be grouped. All claims not submitted within the time specified are to be barred.

A tribunal of three members, one of whom is to be chosen by the United States, another by Great Britain, and the third by the first two, is provided for. It is to sit in Washington.

Central Board for All City Departments Four Applicants for Place.

Colorado Springs is soon to become more progressive, particularly in matters pertaining to the rapid handling of municipal telephone calls and inquiries, and as a first step in the plan to adopt more up-to-date methods, civil service examinations for city telephone operators were held at the city hall yesterday noon.

Four applicants, two men and two young women, were put through a series of tests by C. N. Cox, clerk of the civil service commission. The subjects of examination and the weights are as follows: Spelling, 2; penmanship, 2; knowledge of duties, 6. Special attention in giving the examinations was devoted to the practical knowledge that applicants for appointment are required to possess. City operators, it is pointed out, must be quick and accurate in their work, possess acute hearing and a fair knowledge of the city. Results of the examinations will be decided by the board probably the latter part of next week.

To Have City Hall Exchange.
It is proposed, as soon as present plans can be completed, to do away with a telephone operator at fire headquarters and to have all calls that now go through the central fire station received at the city hall by the city's central. It is said that the new office in the city hall will be known as the "Electrical Bureau" or some similar name, and that all telephone calls for city departments and officials will go through the city's own exchange.

While four applicants took the examinations yesterday to become telephone operators, positions for but two are open at present. If the appointments are made, the successful ones will be detailed at the central fire station.

AVE'S SILENT WORK

Freight Trains, Running Off Schedule Ahead of D. & R. G. Express, Falls Through Bridge.

GRAND JUNCTION, Colo., July 19.—A wreck in which scores of passengers might have been killed was averted when contrary to custom a freight train on the Denver and Rio Grande railroad, preceded the transcontinental express a few minutes out of Debeque this afternoon and broke through a bridge over which the express train was due to pass a few minutes later. The freight train waited at Debeque for the express train to pass, but the dispatcher finally allowed it to go ahead. The freight train reached the bridge, and the engine passed completely over when the structure gave way allowing four cars and the tender to fall a distance of 40 feet. The engine and the rear end of the train remained on the track. No one was injured. A flagman rushed back and signaled the passenger train.

The bridge had been weakened by the swelling of a stream, due to a cloudburst.

GERMAN NOBLEMAN GOES TO PRISON FOR MURDER

BERLIN, July 19.—Baron Oswald von Richthofen, who killed William von Gaffron in a duel May 10, was today sentenced to two years' imprisonment in a fortress. Both men were army officers. The baron is a son of the late secretary of foreign affairs. A quarrel over money matters led to the duel.

FORMER SECRETARY OF WAR IN MEXICO WAS TOO CLOSE TO OLD REGIME.

Under the terms of the peace agreement De la Barra was to name the secretary of war, Gen. Eusebio Rascón, and of the assistant secretary, Gen. Juan M. Duran.

Gen. Jose Gonzalez Salas was appointed assistant secretary. The retiring officials left it to the president to make known the reason for their resignation, but he withheld the information.

There will be no surprise if Gen. Lauro Villar, who is in command of the federal troops at Chihuahua during the latter part of the revolution, is named to succeed General Rascón.

The most plausible reason for the retirement of General Rascón is that given by men who have been advisers of Francisco I. Madero since the close of the war that he was too closely identified with the old regime.

These men said several days ago that Rascón "would have to go" and that his place in the cabinet would be filled by a man of Madero's choice.

FRENCH PRESS DEMANDS APOLOGY FROM SPAIN

PARIS, July 19.—The press continues exercised over the arrest of M. Bolezet, the French consul agent at Alcazar, Morocco, by a Spanish patrol and demands that Spain make immediate reparation and public apology.
The Echo de Paris declares that unless Spain apologizes the French ambassador at Madrid will be recalled. Some of the newspapers like the Temps think that the Spanish provocative attitude is due to the feeling that she is being ignored in the pending Franco-German negotiations.
The Main declares that the Franco-German "conversations" are less favorable on account of the "impossible" demands of Germany which, in return for the abandonment of Morocco, wishes France to cede to her the coast of French Congo, including the town Libreville on the north shore of the Gabon estuary. The paper adds that Jules Cambon, the French ambassador at Berlin, unequivocally refused to entertain the suggestion.

NO ATTEMPT TO MAKE INTERNATIONAL STEEL PRICE

NEW YORK, July 19.—Charles M. Schwab, president of the Bethlehem Steel corporation, gave emphatic denial today to the general report that there was an effort made at the Brussels steel conference, to make an international agreement to control steel prices.
Mr. Schwab, who attended the Brussels conference, returned today on the Olympic from Europe. He said iron and steel conditions in European countries were excellent.

NEW YORK, July 19.—Although the minutes of the meetings of the board of directors of the American Sugar Refining company, show that Washington B. Thomas, the present chairman of the board, was elected a member of a special committee, with H. O. Havemeyer and Mr. Smit to acquire sugar refineries, Mr. Thomas today told the special congressional committee investigating the so-called "sugar trust" that he knew nothing about it until he read of it in the government report at Washington a few days ago.

Didn't Mr. Havemeyer notify you that you were a member of the committee to purchase independent sugar interests throughout the country? Chairman Hardwick asked him.
"Not that I remember."

"As a member of such committee did you ever participate in the purchase of such interests?"
"I don't think so."

"But the records show that you, as a member of the committee joined in these \$500,000 purchases of independent sugar interests."

"I have no recollection of it. Mr. Havemeyer always attended to these matters alone and never consulted anyone."

Mr. Thomas told of his financial interest in the American Sugar Refining company. His stock, he said, amounted to about three thousand shares with a book value of about \$375,000 and the holdings of the members of his family, including his own, are between 15,000 and 20,000 shares, with a value of between \$1,500,000 and \$2,000,000.

Mr. Havemeyer, when he died had only about 135 shares of stock, but for many years had thoroughly dominated the company, the witness said.
Mr. Thomas said the \$500,000 stock of the company was represented by real property with a book value of \$135 for every 100 shares of stock.

Chairman Hardwick said he would not accept the company's book value as correct.
"Anybody can figure book value," he said, "what I want is actual value by unprejudiced experts," and it was intimated the committee would attempt to reach such valuation by employment of experts to appraise the value of the property.

In reply to Representative Madison Mr. Thomas went into the formation of the original trust.
"The refineries composing the first company were capitalized at \$5,500,000 and were given \$50,000,000 of sugar trust stock for their properties, were they not?"

"I believe so."
"That's a whole lot of moisture, was it not?"
"I guess so."
"Do you not know that much of the stock is now water?"

Mr. Thomas admitted that this might be true.
In the reforms you inaugurated about the time of Mr. Havemeyer's death, did you reduce salaries?"

"I did in my case."
"What are you getting?"
"Twenty-five thousand a year."
"What was Mr. Havemeyer getting?"
"One hundred thousand."

"Was not John E. Parsons, as counsel, paid \$10,000 for his services in bringing in the Philadelphia refineries?"
"Yes, but we have cut out such matters now."

Mr. Thomas added that Vice President Atkins, although taking a very active interest in the affairs of the company receives no salary. He explained this by saying that Mr. Atkins liked to work.

Among the reforms to be instituted by the company, according to Mr. Thomas, is a pension system for employees.
Mr. Madison who took a hand in the questioning, said he believed the common stock of the National Sugar Refining company in the New Jersey suit would be invalidated "as the issuing of that stock was a veritable steal," and that this would give the American company control, thus increasing its output to nearly 60 per cent of the country's product.

This with the American's large interest in the beet sugar industry would make the American a most formidable corporation absolutely controlling one of the country's necessities.
"Do you think Congress should control such a powerful organization?" he asked.
"I think it would be a good thing," replied the witness.

(Continued From Page One.)
The interest being taken by the fraternal bodies indicated by the fact that Chairman Perkins has received assurances from more than 25 organizations that they will not only have magnificent floats in the parade but will have their members and drill teams in line by the hundreds. From this source alone it is estimated that not less than 3,000 persons will be in the line of march, many in the uniform of their various societies.

Some of the Floats.
The Elks have already outlined their plans for making the greatest demonstration in the history of the local lodge, and intend their float to be the finest ever seen in Colorado Springs previous to this occasion. It will be followed by the Elks' band of 40 pieces with the members dressed in Indian costume and 300 members of the order in uniform. The Union Printers home is preparing one of the most novel and striking floats ever devised, but for the present, Superintendent Deacon is keeping the details secret with the idea of springing a pleasant surprise on the morning of the parade. Among the orders active along this line are the Modern Woodmen of America, Woodmen of the World, Odd Fellows, Maccabees, Knights of Pythias, Masons, Eagles, Jr. O. U. A. M., etc.

Arrangements are being made to have the Santa Clara Indians from the Cliff Dwellings Ruins company at Manitou in the line of march, and the company of 25 Indians from the reservation that will be brought here specially for the carnival, will also form a spectacular feature. A band party will include 11 brass and chiefs, nine squaws and five children, all dressed in their most brilliant costumes. In the party will be the best dancers and most experienced show Indians on the reservation according to a letter received from J. F. Werner, superintendent at Ignacio.

Arrangements for the pioneer portion of the parade are practically complete and from the information received by the committee as to over 3,000 pioneers of the Pikes Peak region and other parts of the state will be in line. It will be the greatest reunion of old-timers ever held in Colorado and will form one of the most interesting features of the entire carnival.

Preparations for the mask street parade and mask ball at Temple theater on Tuesday night, August 3, are nearly complete, and Chairman G. Carpenter expects to be able to announce final arrangements this week. It is the intention to have the big canvas tent used by the Elks in their Ozozo last year, spread on Kiowa street, on the north side of the building, and permission has been obtained from the City Council to do so. The tent will be used as a recreation and refreshment space, and to relieve what might otherwise be a crowded condition in the theater.

The handling of tickets for admission to all the attractions in connection with the carnival will be done at the Opera House box office under the direction of Manager S. N. Nye, and the sale of tickets will commence next Saturday morning. The price of tickets for all the attractions will be arranged by the executive committee for publication at that time.

Where to Get Information.
As the time for the carnival approaches, public interest in the event is increasing rapidly, and from now on the chairman of the various committees will be more busy than ever. To relieve their work and to accomplish the most in arranging details with the least possible friction, the executive committee requests that all persons desiring general information on any carnival matters call the committee headquarters in the Hazerman building, Main 1274, where the secretary, J. McK. Ferriday, or his assistant, S. N. Nye, will give prompt and complete information. For information on any particular feature of the carnival, such as the automobile parade, aviation meet, civic and pioneer parade, etc., the public is requested to telephone the various chairmen of committees, as follows: Aviation meet and Roswell park committee, L. Lawton, office Main 501, residence Main 1311; civic and pioneer parade committee, Arthur H. Perkins, office Main 721, residence Main 1325; automobile parade committee, D. V. Donaldson, Main 559 or 2590, or L. E. Curtis, office Main 850, residence Main 498; pioneer division of the parade, Mrs. W. W. Price, residence Main 799; mask ball committee, Lewis G. Carpenter, office Main 897, residence Main 1707; Indian matters, S. N. Nye, office Main 720, residence Main 1501. Mr. Nye will also furnish all information as to tickets for any of the attractions, and Mr. Lawton, chairman of the Roswell park committee, will give information on matters connected with the wild west show to be held at Roswell park.

Extensive Advertising Campaign.
The interest being taken in the carnival outside of the Pikes Peak region is unusual, according to many letters received by the executive committee, for the reason that the events have been widely advertised in 2,500 newspapers in the south and middle west by news stories for the last three weeks. The state papers, including the big Denver dailies, and several stories have been carried by the Associated Press to papers all over the United States. The executive committee has also accomplished an enormous amount of advertising by means of letters sent out to all parts of the country, the distribution of 5,000 artistic posters through the medium of the railroads and otherwise, and a persistent flow of personal letters to prominent business men, railroad officials, newspaper owners and editors, etc., all over the country. The railroads have done much to bring the carnival to the notice of the public, and the local Chamber of Commerce has accomplished a great deal by articles in its weekly letter to thousands of newspapers in the west and south and by advertising the carnival in its "Daily Doings," issued once a week. The work of advertising outside of the Pikes Peak region has been going on persistently for the last four weeks, and while this feature of the preparations has not been brought to the attention of the public, it has entailed enormous labor on the part of the executive committee and those in charge of headquarters. The committee members are enthusiastic over the results of their advertising campaign so far, and confidently

expect that at least 25,000 visitors will be drawn to the Pikes Peak region who would not otherwise visit it. That this will mean millions of dollars in the aggregate to the district can easily be recognized, not to mention the indirect value of the advertising for the future.

Sheriff George Birdsall spent the greater part of yesterday in Rock Creek canon searching for Andrew J. James, of 707 North Weber street, who disappeared from his home on June 27 and who has not been seen since that time. The canon where James said he was going, is one of the wildest in this section of the Rockies and it is feared that he has met with an accident. No trace of him has been found.

Most of the ranches owned by Americans and foreigners are in the northern part of Lower California. During the recent revolt they suffered considerably from raiding parties of rebels and bandits.

Agua Prieta Under Martial Law.
DOUGLAS, ARIZ., July 19.—Agua Prieta, Mexico, is under martial law and no one has been allowed either to enter or leave the town since 9 o'clock this morning.

Capt. Romero, the paymaster, was arrested when, after paying off soldiers who were to be discharged, he insisted on taking their guns. Captain Herrera, commander of the garrison, ordered his arrest. J. L. Lubbert, customs collector, also was placed under arrest.

Martial law has been declared. No one in Douglas is allowed to cross the line. Several Douglas people who were in Agua Prieta, are unable to get back to this side. Cannons have been placed in the streets and guards patrol the border, permitting no one to pass.

GROUND BREAKING PROGRAM FOR PANAMERICAN FAIR
SAN DIEGO, Cal., July 19.—Thousands of people knelt today before the open air altar in Balboa park on the site of the Panama canal exposition as mass was celebrated as a preliminary to ground breaking for the exposition.
The first spadeful of earth was turned by President Taft's representative, John Barrett, director general of the Panamerican union. The religious service commemorated the founding of the California missions by the Franciscan fathers.
A feature was the unfurling of the president's flag, the American flag and the flags of the South American republics when President Taft pressed a button in Washington.
DENVER, July 19.—Father Michael J. Casey, of Wichita, Kan., died at St. Joseph's hospital here last night after a long illness, aged 61 years. Father Casey was a native of Ireland, where he received his early education. The body will be sent to Leavenworth, Kan., for burial.
GERMAN STUDENTS MUST STUDY ENGLISH HEREAFTER
NEW YORK, July 19.—An important chance is about to be made in the German system of national education, according to advices received here. Greek, which has hitherto been the pride of the German "gymnasium," is no longer to be obligatory, and English is to take its place.

Banda Mexicana Gives Concerts Above Clouds

With the exception of those given on the Summit of Pikes Peak a year or two ago, the only band concerts ever given completely above the clouds, so far as known here, were the three by the Banda Mexicana on Mount Manitou yesterday. The members of the band, all of whom are Mexicans, very few even speaking English, gave two concerts in the afternoon and one in the evening. But two native pieces were played, "Gloria" and "La Paloma," the Mexican national air. No programs were arranged, the director playing every number requested by the audience. A feature of the evening concert was the absence of drums, trap, bass and kettle. The musicians, 35 in number, were dressed in typical red buckskin chaps, trimmed with yellow braid. The novelty of the costumes appeared strongly to the interested audience. Although it rained practically all day, the incline railway reports a much larger crowd than was expected.

News of Local Courts

E. Miller, charged with cruelty to a horse belonging to the Cheyenne Burro company, will be tried in Justice Gowdy's court this afternoon. He is out under \$200 bond.

John and James Price, colored, will be tried in Justice Dunnington's court this afternoon on a charge of contributing to the delinquency of Anna Lollis.

Charged with cruelty, Mrs. Scott, 307 South Weber street, was arrested yesterday by Humane Officer Reynolds and Constable Edgar Peyton and was taken to the county jail. It is alleged that she was under the influence of liquor and beat Margaret Patrick, 12 years old, until neighbors sent for the authorities. Mrs. Scott is employed in the Patrick household, and it is alleged, has frequently mistreated the little girl.

Charles W. Haines has filed suit in the district court against the Freeman Music company, a partnership, and M. A. Fisher, Alfred Freeman and Florence Freeman, on alleged unpaid promissory notes amounting to approximately \$2,750. The notes, it is claimed, were executed and delivered to the First National bank and after they had matured were sold to Haines.

What the Press Agents Say

"THE CITY" A

RECORD-BREAKER

"The most phenomenal success of the season," "the greatest drawing card," "the record breaker," and a few other similar titles are the way local playgoers style this week's production of "The City" at the opera house. So great has been the demand for seats for "The City" that Mr. Lorch has decided to present it at the opera house the rest of this week with a matinee Saturday afternoon. Seats may be secured at the box office now.

When Clyde Fitch conceived the idea which eventually went to make "The City," he intended to show that the city is harmful to the development of the best there is in man; that it is a hothouse as it were, a place which forces the growth of humanity in an artificial manner, rather than an aid to the furthering of the better natural instincts and latent possibilities; but when an author deals with real men and women he generally finds that his brain conceptions are as contrary as live people and will not always conform to any preconceived plot or idea. The result of Fitch's plans shows a truer view of the city than his original scheme. The drama pictures the city as developing the predominating traits of the individuals who live within its walls. If the man or woman is weak in any certain way the city brings out that weakness. If he is strong, his strength is doubled. In other words the city specializes on its people.

"The City" has played to four packed houses and indications point to capacity business the remaining nights this week. There is a reason for this. See "The City." You will be benefited by it. "Under Two Flags" which was to have been presented at the opera house tomorrow night, will be produced next week, commencing Monday night. A spectacular scenic production will be made of this famous old drama. Cecil Fay will be seen as Cigarette.

SENSATIONAL ACT AT

MAJESTIC SATURDAY

The biggest sensation of the year is the way the Fred Karno English pantomime company, presenting "A Night in a London Music Hall," is heralded, and if this remarkable art, together with the rest of the fine bill which Manager Tammen of the Majestic theater has booked for the week opening Saturday, does not play to capacity business all the week then there is no attraction that could be brought to Colorado Springs which would do so.

Bringing this act here is, in fact, the most daring piece of managerial enterprise imaginable, for it is the highest priced act on the Sullivan and Considine circuit and costs hundreds of dollars more a week than

any other vaudeville act ever seen in Colorado Springs. Just \$300 a week is the figure this company draws, but all over the circuit it has proved a drawing card which made it worth while.

The act is the most uproariously, riotously, ridiculously funny thing imaginable. And its mirth-provoking power is largely due to the fact that it is all pantomime—not a word is spoken. The stage is set as a theater, and between the performers and the spectators in the boxes a whirlwind of fun is furnished.

FINE COMEDY BILL

CLOSES TOMORROW

Tomorrow night ends the engagement of one of the most classy and entertaining comedy bills the Majestic has had this summer. The sketch "Tactics" is the cleverest and best acted one-act comedy which Colorado Springs people have been treated to in the last generation, and were there nothing else on the program it would alone more than repay anyone for the small outlay necessary to secure a majestic seat. However, Harry Le Clair, the female impersonator, in a travesty on "Cleopatra," Knox and Alvin, a mixed team, in a singing and talking comedy act, and Mlle. Ani Hill, in aerial acrobatic feats, are other features that contribute much to the popularity of the program.

One of the most interesting numbers is the great comedy film, "Securing Evidence," which keeps every audience in an uproar of laughter. It is especially interesting because it shows many of the amusement devices which have made Coney Island famous in actual operation, and the spectator who has never seen Coney Island gets a good taste of the fun to be had there. In addition to all these features there is the concert orchestra program which gives musical finish to an enjoyable bill.

HUSBAND SLAPPED HER; FILES SUIT FOR DIVORCE

That her husband shook his fist in her face, slapped her, and in no uncertain tones cursed her, Mrs. Ethel J. Meyers alleges in her petition for divorce from Martin L. Meyers, a Colorado Springs photographer. The suit was filed in county court today, and an injunction to restrain Meyers from disposing of his property was granted.

A peculiar feature of the case is that Mrs. Meyers admits that before she started court proceedings she signed a contract with her husband agreeing not to ask for alimony or to lay claim to any of his property. For this contract she received \$200. Her claim now is that she was forced to sign the paper through fear of her husband. She asks for alimony during the trial, permanent alimony and \$500 in cash.

BOY SLIGHTLY INJURED BY A FRACTIOUS HORSE

Robert Williamson, 7 years old, who is visiting here with his parents from Dallas, Tex., was knocked down by a fractious horse at the corner of Pike's Peak avenue and Tejon street shortly after 5 o'clock last evening. With the exception of a few bruises the boy was uninjured and was taken to his home at the Plaza hotel. Hayman Bailey, driving a delivery wagon for the Banner grocery, collided with young Williamson, but those who saw the accident say that he was not to blame. His horse shied at a street car and made two or three jumps before he could control it. Patrolman Swanson picked up the Williamson lad and placed him aboard a street car on which some of the boy's friends were going to the hotel.

ANNUAL MEETING OF THE FACULTY OF THE TEACHERS' INSTITUTE

Arithmetic—Historical and utilitarian methods; methods in general; mathematical principle involved in methods applied to fractions, percentage, longitude and time, ratio and proportion measurement.

School Law—The work in school law will be taken up with the view of presenting those parts of the subject which are of the most practical value to the teachers. Opportunity will be given to ask questions concerning any phase of the subject not touched upon by the instructors.

QUEER CIRCUS POSTOFFICE

Forepaugh and Sells Bros. Show Ground Is a Town In Itself.

The show ground of the Adam Forepaugh and Sells Brothers' circus is a town in itself with its own shops and all the usual conveniences of a town corporation. It even has its own postoffice. It was not established by the government, nevertheless it is run just like those whose postmasters are appointed by the president, except that it cannot issue money orders or register letters. In other respects it is the same.

Mail comes to this strange city from all quarters of the globe. It is brought from the local office every morning in a blue wagon and distributed by the circus postmaster. When the long line of people, in which every nation has a representative, files past the window in the postal tent, the letters and packages are handed out just as in one of Uncle Sam's official places.

The big show also carries its own hotel and dining room. Over 3,000 meals are served there every day in the week. A corps of sixty-five cooks, waiters and dishwashers are employed. At a single breakfast it is not unusual to serve 200 dozen eggs, 500 pounds of pork chops, 100 gallons of coffee, 200 pounds of butter, ten bushels of potatoes and various other provisions in the same proportions. The home of this strange band of people is a train of several sections,

With the end of the garment "selling" season near, we find our stock of garments suits, dresses, coats, etc., much too large. This is occasioned by our receiving so many special purchases made when New York manufacturers were slashing prices.

To these special purchases we have added a great part of our regular stock, making a showing that would indeed be complete at the beginning of the season. The clearance must come now. The prices quoted here will do the work. Your greatest opportunity for garment buying will be this morning; for, remember: These are a beautiful new summer and early fall styles that can be worn right through the winter. Hardly a garment has been in our store longer than sixty days.

New the time has come to buy. Every day and your savings will total big.

CHICK EVANS RETURNS

WITH FOREIGN TROPHIES

BOSTON, July 19.—Charles (Chick) Evans, the Chicago golfer, who failed in his efforts abroad to capture the British amateur championship, landed here today with two prizes in his grip and another following.

Evans won the principal prize at

Troone, one of the leading Scottish links, and a second prize at Stokes Poles in the Royal Gold Vase competition. He also captured the Bennett cup in the French amateur tournament at Paris. This trophy will be sent to him.

Mr. Evans left here for Detroit, where

he expects to participate in the western amateur championship tomorrow.

FOLLIE LEVY IN THE LEAD

WINDSOR, Can., July 19.—The feature of today's race program was the Ponchartrain selling stakes, a steeple-chase over the two-mile course, and a selling handicap at one mile.

The Ponchartrain was won by Follie

Levy by a scant length from Rogon, who beat Cohort a head for the place. Expansionist, winner of the steeple-chase, was barred in the betting.

MANITOU DEPARTMENT

NOT KEPT BY RAIN FROM CRYSTAL TRIP

The Crystal park trip has earned a name for itself far and wide. The Hutchinson touring party of about 60 members planned to take the trip yesterday, and although it was raining, they insisted upon starting out on their original plans, five cars going. On account of the low-hanging clouds, the views were partially obscured, but the party expressed its delight at being able to be above the clouds. Lunch was served in the pavilion at the park. The party also returned in the rain.

STRIKES SODA WATER

Soda water has been struck by W. S. Crosby, who has been drilling for it on his property on Ruxton avenue for the last week or two. The spring is interesting in that there are no others like it in this region. At a depth of 200 feet some kind of mineral water was struck, and although it has not been analyzed, it is thought to contain iron and magnesium from the fact that it leaves a stain.

THREE ARE FINED

W. H. Cunningham, the hackman who was recently arrested for threatening and using offensive language to H. L. Anderson, was fined \$10 and costs by Magistrate Sawin yesterday. A. G. Van Cott and T. DeWitt Burris were fined \$5 and costs each for being drunk and causing a disturbance.

Orange
Pésoe

This high-grade tea is a com-
bination of the finest grades of
tea selected from the most fa-
mous plantation districts of In-
dia and Ceylon.
The perfection of blend is the
result of forty years' experience
in buying and blending high-
grade teas.
Orange Pésoe is prepared by
Chase & Sandern and is sold in
air-tight tins. It is what is
known to the trade as a fancy
tea.
If properly made there are two
hundred and fifty cups to the
pound, making it not only the
best, but the cheapest.
Packed only in separate tins
at 75c the pound.
